milkyway

a **MULTiVERSE** *brand*

ABOUT US

As Multiverse's flagship brand, Milkyway Glass has become synonymous with high-end multi-layered sandblasted glass.

We're based in North America with distribution centers in Dallas, Texas and Calgary, Canada. Our design studios are located in Toronto and Dallas.

We own our own facilities and manage every part of the process from initial design, to production and distribution.

We're passionate about what we do, we'd like to show you why...

OUR PRINCIPLES

Milkyway Glass is grounded in the following principles:

Functionality First...

We evaluate the airflow and percolation on each product, carefully testing to ensure that functionality is optimized for an enjoyable user experience.

Double 'Carving' Sandblast...

Our specialized double sandblasting methods produce a multitude of unique effects, greatly enhancing the contrast and texture of the surface. Each product is made with super thick glass, including the joints.

Attention to Detail...

With an emphasis on aesthetics, we strive to create collectible works of art, admired for their elegance and beauty as well as their functionality.

Quality & Customer Service...

We place paramount importance on strict quality control and employ a friendly comprehensive customer service policy that guarantees your satisfaction.
