“A STRONG AND AFFORDABLE DAILY DRIVER THAT FUNCTIONS SUPERBLY”

- Hemel Parmar, Creative Director

Introducing Milkyway X, the latest addition to the Multiverse. In contrast to the opulent sandblast of Milkyway, Milkyway X features an accent sandblast that ***lowers the cost significantly*** whilst sacrificing none of the function. Both brands are made using high-quality, thick boroscilicate glass, masterfully made by the same Multiverse engineers as Milkyway.
